The Example Kit List for the **Paediatric SCRAM™ bag** is intended only as an example of how the Paediatric SCRAM™ bag may be stocked. The Paediatric SCRAM™ bag may be stocked in different ways to accommodate the requirements of different users. You should review your requirements carefully and add or delete items to meet those needs. It is the responsibility of the health professional or health organisation stocking the Paediatric SCRAM™ bag to ensure that any equipment and other items stocked in it meet with and comply with its own requirements and all and any relevant guidelines, statements of practice or laws in the location where the Paediatric SCRAM™ bag will be used. The Example Kit List does not constitute advice and no representations or warranties, express or implied, are given that the Example Kit List is accurate or complete or in line with current medical guidelines or practice. No liability will accrue to the manufacturer, distributor, **Scottish Health Innovations Limited (SHIL)** or any other party in the event that the User suffers any loss or damage as a result of relying upon the suggestions made in the Example Kit List, or any omissions from it.
